

FARVS SYSTEM REPORT STRUCTURE (UPDATED)

1. Cover Page

- Project Title
- Course
- Student Details
- Lecturer
- Date

2. Executive Summary

- Overview of the system's purpose, objectives, and functionality.

3. System Description

3.1 Background

3.2 Problem Statement

3.3 System Objectives

3.4 Scope

3.5 System Users

4. System Architecture

4.1 Technologies Used

4.2 Architecture Overview

5. Database Design

5.1 Requirements Summary

5.2 Entity–Relationship Diagram (ERD)

5.3 Logical Schema

5.4 Data Dictionary

5.5 Normalization Notes

6. Implementation of Key Database Concepts

6.1 Primary Keys & Foreign Keys

6.2 Relationships (1–M, M–M)

6.3 Constraints (NOT NULL, UNIQUE, CHECK, DEFAULT)

6.4 Indexing

6.5 Views

6.6 Stored Procedures / Functions

6.7 Transactions

6.8 Security & Access Control

6.9 CRUD Operations

7. SQL Implementation Summary

7.1 Sample CREATE TABLE Snippets

7.2 Sample Queries

8. System Screenshots

- Key interface pages.

9. Testing Summary

- Test cases and results overview.

10. Challenges & Limitations

11. Conclusion

12. References

13. Appendices
